

CITY OF SUGAR LAND
LAND USE
PLAN

DRAFT

Acknowledgements

The Land Use Plan update process began in 2013 and was completed in 2017. During the four years of the Plan's development, approximately 300 people including Sugar Land residents, City elected and appointed officials, City staff, and interested community members were involved in one way or another. However, without the extensive efforts of the following people, this Plan update would not have been possible.
